(4) If the part is an organ, an eye, or tissue and the gift is for the purpose of research or education, the gift passes to the appropriate procurement organization.

(d) For the purposes of subsection (c) of this section, if there is more than one purpose of an anatomical gift set forth in the document of gift but the purposes are not set forth in any priority, the gift shall be used for transplantation or therapy, if suitable. If the gift cannot be used for transplantation or therapy, the gift may be used for research or education.

(e) If an anatomical gift of one or more specific parts is made in a document of gift that does not name a person described in subsection (a) of this section and does not identify the purpose of the gift, the gift may be used only for transplantation or therapy, and the gift passes in accordance with subsection (g) of this section.

(f) If a document of gift specifies only a general intent to make an anatomical gift by words such as "donor", "organ donor", or "body donor", or by a symbol or statement of similar import, the gift may be used only for transplantation or therapy, and the gift passes in accordance with subsection (g) of this section.

(g) For purposes of subsections (b), (e), and (f) of this section, the following rules apply:

(1) If the part is an eye, the gift passes to the appropriate eye bank.

(2) If the part is tissue, the gift passes to the appropriate tissue bank.

(3) If the part is an organ, the gift passes to the appropriate organ procurement organization as custodian of the organ.

(h) An anatomical gift of an organ for transplantation or therapy, other than an anatomical gift under subsection (a)(2) of this section, passes to the organ procurement organization as custodian of the organ.

(i) If an anatomical gift does not pass pursuant to subsections (a) through (h) of this section or the decedent's body or part is not used for transplantation, therapy, research, or education, custody of the body or part passes to the person under obligation to dispose of the body or part.

(j) A person may not accept an anatomical gift if the person knows that the gift was not effectively made under § 7-1531.04 or § 7-1531.09 or if the person knows that the decedent made a refusal under § 7-1531.06 that was not revoked. For the purposes of the subsection, if a person knows that an anatomical gift was made on a document of gift, the person is deemed to know of any amendment or revocation of the gift or any refusal to make an anatomical gift on the same document of gift.

(k) Except as otherwise provided in subsection (a)(2) of this section, nothing in this subchapter affects the allocation of organs for transplantation or therapy.

§ 7-1531.13. RIGHTS AND DUTIES OF PROCUREMENT ORGANIZATION AND OTHERS.

(a) When a hospital or hospice refers an individual who is dead or whose death is imminent to a procurement organization, the organization shall make a reasonable search of the records of the Department of Motor Vehicles and any donor registry that it knows exists for the geographical area in which the individual resides to ascertain whether the individual has made an anatomical gift.

(b) A procurement organization shall be allowed reasonable access to information in the records of the Department of Motor Vehicles to ascertain whether an individual who is dead or whose death is imminent is a donor.

(c) When a hospital or hospice refers an individual who is dead or whose death is imminent to a procurement organization, the organization may conduct any reasonable examination necessary to ensure the medical suitability of a part that is or could be the subject of an anatomical gift for transplantation, therapy, research, or education from a donor or a prospective donor. During the examination period, measures necessary to ensure the medical suitability of the part may not be withdrawn unless the hospital or procurement organization knows that the individual expressed a contrary intent.

(d) Unless prohibited by law other than this subchapter, at any time after a donor's death, the person to which a part passes under § 7-1531.10 may conduct any reasonable examination necessary to ensure the medical suitability of the body or part for its intended purpose.

(e) Unless prohibited by law other than this subchapter, an examination under subsection (c) or (d) of this section may include an examination of all medical and dental records of the donor or prospective donor.

(f) Upon the death of a minor who was a donor or had signed a refusal, unless a procurement organization knows the minor is emancipated, the procurement organization shall conduct a reasonable search for the parents of the minor and provide the parents with an opportunity to revoke or amend the anatomical gift or

revoke the refusal.

(g) Upon referral by a hospital or hospice under subsection (a) of this section, a procurement organization shall make a reasonable search for any person listed in § 7-1531.08 having priority to make an anatomical gift on behalf of a prospective donor. If a procurement organization receives information that an anatomical gift to any other person was made, amended, or revoked, it shall promptly advise the other person of all relevant information.

(h) Subject to §§ 7-1531.10(i) and § 7-1531.22, the rights of the person to which a part passes under § 7-1531.10 are superior to the rights of all others with respect to the part. The person may accept or reject an anatomical gift in whole or in part. Subject to the terms of the document of gift and this subchapter, a person that accepts an anatomical gift of an entire body may allow embalming, burial, or cremation, and use of remains in a funeral service. If the gift is of a part, the person to which the part passes under § 7-1531.10, upon the death of the donor and before embalming, burial, or cremation, shall cause the part to be removed without unnecessary mutilation.

(i) Neither the physician who attends the decedent at death nor the physician who determines the time of the decedent's death may participate in the procedures for removing or transplanting a part from the decedent.

(j) A physician or technician may remove a donated part from the body of a donor that the physician or technician is qualified to remove.

(2) If the prospective donor is incapable of resolving the conflict, an agent acting under the prospective donor's declaration or directive, or, if none or the agent is not reasonably available, another person authorized by law other than this subsection to make health-care decisions on behalf of the prospective donor, shall act for the donor to resolve the conflict.

(a) The Chief Medical Examiner and Office of the Chief Medical Examiner shall cooperate with procurement organizations to maximize the opportunity to recover anatomical gifts for the purpose of transplantation, therapy, research, or education. The Office of the Chief Medical Examiner and procurement organizations shall in good faith develop and agree upon protocols in a memorandum of understanding to achieve this objective and shall evaluate the effectiveness of the memorandum of understanding at regular intervals, but no less frequently than every 2 years.

(b) If the Chief Medical Examiner receives notice from a procurement organization that an anatomical gift might be available or was made with respect to a decedent whose body is under the jurisdiction of the Chief Medical Examiner and a post-mortem examination is going to be performed, unless the Chief Medical Examiner denies recovery of a specific part or parts in accordance with § 7-1531.22, the Chief Medical Examiner, or designee, shall conduct a post-mortem examination of the body or the part in a manner and within a period compatible with its preservation for the purposes of the gift.

(c)(1) A part may not be removed from the body of a decedent under the jurisdiction of the Chief Medical Examiner for transplantation, therapy, research, or education unless the part is the subject of an anatomical gift and the Chief Medical Examiner has been notified before the part is removed from the decedent and has approved the removal.

**§ 7-1531.22. FACILITATION OF ANATOMICAL GIFT FROM DECEDENT
WHOSE BODY IS UNDER JURISDICTION OF CHIEF MEDICAL EXAMINER.**

(a)(1) The relationship between the Office of the Chief Medical Examiner and a procurement organization shall be governed by a memorandum of understanding between the Chief Medical Examiner and the procurement organization, which shall contain protocols to resolve any conflicts between the Chief Medical Examiner and the procurement organization.

(2) The time period within which a recovery must be performed to be compatible with the preservation of the part or parts for the purpose of transplantation, therapy, research, or education shall be medically determined, based on the best practices for the recovery of parts, pursuant to the pertinent protocols in the memorandum of understanding.

(b)(1) Upon request of a procurement organization pursuant to an anatomical gift, the Chief Medical Examiner shall release to the procurement organization the name, contact information, and available medical and social history of a decedent whose body is under the jurisdiction of the Chief Medical Examiner.

(2) If the decedent's body or part is medically suitable for transplantation, therapy, research, or education, as determined by the appropriate procurement organization, the Chief Medical Examiner shall release post-mortem examination results to the procurement organization.

(3) The procurement organization and any other recipient may make a subsequent disclosure of the post-mortem examination results or other information received from the Chief Medical Examiner only if relevant to transplantation, therapy, research, or education.

(c) The Chief Medical Examiner may conduct a medicolegal examination by reviewing all medical records, laboratory test results, x-rays, other diagnostic results, and other information that any person possesses about a donor or prospective donor whose body is under the jurisdiction of the Chief Medical Examiner which the Chief Medical Examiner determines may be relevant to the investigation.

(d) A person that has any information requested by the Chief Medical Examiner pursuant to subsection (c) of this section shall provide that information as expeditiously as possible to allow the Chief Medical Examiner to conduct the medicolegal investigation within a period compatible with the preservation of parts for the purpose of transplantation, therapy, research, or education.

(e) If an anatomical gift has been or might be made of a part of a decedent whose body is under the jurisdiction of the Chief Medical Examiner and the Chief Medical Examiner determines that a post-mortem examination is not required, or the Chief Medical Examiner determines that a post-mortem examination is required but that the recovery of the part that is the subject of an anatomical gift will not interfere with the examination, the Chief Medical Examiner and procurement organization shall cooperate in the timely removal of the part from the decedent for the purpose of transplantation, therapy, research, or education.

(f)(1) If an anatomical gift of a part from the decedent under the jurisdiction of the Chief Medical Examiner has been or might be made, but the Chief Medical Examiner initially believes that the recovery of the part could interfere with the post-mortem investigation into the decedent's cause or manner of death, the Chief Medical Examiner shall consult with the procurement organization, or a physician or technician designated by the procurement organization, and, at the discretion of the Chief Medical Examiner, with an attending physician, about the proposed recovery within a period compatible with the preservation of the part for the appropriate purpose.

(2) After consultation, the Chief Medical Examiner may allow or deny the recovery of the part.

(3) The Chief Medical Examiner shall allow recovery of a part if the Chief Medical Examiner determines that recovery would not interfere with the post-mortem investigation into the decedent's cause or manner of death.

(g)(1) Following the consultation required under subsection (f) of this section, if the Chief Medical Examiner has not been able to expeditiously determine whether to allow recovery of the part, the Chief Medical Examiner, or designee, at the request of the procurement organization, may attend the removal procedure for the part before making a final determination not to allow the procurement organization to recover the part.

(2) During the removal procedure, the Chief Medical Examiner, or designee, may allow recovery of the part by the procurement organization to proceed, or, if the Chief Medical Examiner, or designee, reasonably believes that the part may be involved in determining the decedent's cause or manner of death, deny recovery by the procurement organization.

(3) If, during the removal procedure, the physician engaged by the procurement organization to recover the part discovers evidence that indicates that the cause of death may be suspicious, the physician shall immediately inform the Chief Medical Examiner of this information and shall not continue or undertake any procedures that would compromise this evidence without the approval of the Chief Medical Examiner.

(h) Except as otherwise provided in the memorandum of understanding described in subsection (a) of this

section or a protocol pursuant thereto, if the Chief Medical Examiner, or designee, denies recovery under subsection (g) of this section, the Chief Medical Examiner, or designee, shall:

- (1) Explain in a record the specific reasons for not allowing recovery of the part;
- (2) Include the specific reasons in the records of the Chief Medical Examiner; and
- (3) Provide a record with the specific reasons to the procurement organization.

(i) If the Chief Medical Examiner, or designee, allows recovery of a part, the procurement organization, upon request, shall cause the physician or technician who removes the part to provide the Chief Medical Examiner with a record describing the condition of the part, a biopsy, a photograph, and any other information and observations that would assist in the post-mortem examination.

(b) The Council of the District of Columbia is authorized, after public hearing, to adopt and promulgate rules and regulations to carry out the purposes of this subchapter and subchapter II-A of this chapter, including, without limitation, rules and regulations prescribing:

- (7) The making, keeping, and disposition of records by tissue banks or by other persons recovering, screening, testing, processing, storing, distributing, or transporting tissue.

(c) The Mayor may, after notice and hearing, deny, suspend, or revoke any tissue bank license issued or applied for pursuant to this subchapter and §§ 43-119 and 43-125.

(d) Any person aggrieved by any final decision or final order of the Mayor denying, suspending, or revoking any tissue bank license or renewal thereof, issued or applied for under this subchapter and §§ 43-119 and 43-125, may obtain a review of such decision or order in the District of Columbia Court of Appeals.
